# Welcome to Lisbon

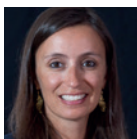

We are delighted to welcome you – more than 3,500 delegates from over 90 countries - to Lisbon for the 33rd Annual Congress of the European Association for Osseointegration under the theme: **Delivering Health and Predictability: Shaping the Future of Patient Care.**

Over the next three days, this congress will offer you the opportunity to explore innovative approaches to advancing health and ensuring predictability in clinical practice. The scientific programme brings together the world's leading experts, offering valuable opportunities to engage with cutting-edge research, technologies and clinical practices that are shaping the future of patient care.

Lisbon, with its unique blend of historic charm and modern energy, provides an inspiring setting for this year's meeting. It is a pleasure to return to this vibrant city and to welcome dental professionals, researchers and industry leaders from around the world. We hope this congress will not only inspire learning and scientific excellence, but also foster meaningful discussions, new collaborations and lasting connections.

On behalf of the EAO, we are honored to have you here in Lisbon. We wish you an inspiring, successful and enjoyable congress.

Warmest regards,

**Helena  
Francisco**

# EAO Honorary Membership

**Ann**  
**Wennerberg**  
**Malmö, Sweden**

Honorary membership is the highest honour that the EAO can bestow on individuals who have contributed greatly both to science in the field of implant dentistry and to the association. Only eleven individuals have received this recognition up until now.

Past recipients of Honorary membership of the EAO are:

- P-I Brånemark
- André Schroeder
- Daniel van Steenberghe
- Niklaus P. Lang
- Franck Renouard
- Christoph Hämmerle
- Friedrich Wilhelm Neukam
- Georg Watzek
- Wilfried Wagner
- Daniel Buser
- Mariano Sanz

Ann Wennerberg received her dental degree at the Dental Faculty, Gothenburg University, in 1979. She became Doctor of Medicine in 1996 at the department of Handicap Research and specialist in Oral Prosthodontics in 1997 at the Dental faculty of Gothenburg University.

In 2002 she became Professor at the same university. Between 2008 and 2017 she held a position as Professor and chairman at the department of Prosthodontic, Malmö University.

Her research has had a clear focus towards implant treatment and in particular studies of the importance of surface roughness for osseointegration. So far she has more than 300 publications in international, peer reviewed scientific journals and she has supervised more than 40 PhD students to dissertation.

She has received numerous national and international awards for her research.

Ann Wennerberg will be honoured during the **Faculty dinner on September 24<sup>th</sup>.**
